XAQIIQOORYINKA KU SAABSAN FENTANYL

**Inta badan dhimashooyinka ka dhaca
washington waxay ka dhashaan si
khalidan u isticmaalka fentanyl.**

**Inaad taqaano xaqiiqooyinka
waxay naga caawin kartaa
badbaadada qof kale.**

WAXA LOO BAAHANYAHAY IN LA OGAADO

- Fentanyl waa mid awood badan, opioid si degdeg ah u falgala oo loo isticmaalo maaraynta xanuunka.
- Fentanyl sharci leh (sharci ah) oo lagu isticmaalo goobaha caafimaadka.
- Fentanyl aan sharciyaynayn (bilaa sharci) waa daawo wadada lagu iibiyo, inta badan loo iibiyo qaab qoraal bilaash ah oo kaniini ama budo ah. Waxaa mararka qaar lagu qasaa daawooyinka sida cocaine ama MDMA.
- Fentanyl waxay 50 jeer ka xooggan tahay heroin waxayna 100 jeer ka xooggan tahay morphine.

skittles

WAXYAABAHA KHATARTA GUUD AH

Qaar kamid ah da' yarta ayaa qaata fentanyl si ulkac ah. In badan oo kale ayaa si aan kas ahayn u qaata — si khaladan u qaadashada kaniiniyada been abuurka ah ee lagu dhex qariyay fentanylka ama Adderall, Xanax, ama Percocet si sax ah loo qoray.

Caafimaadka maskaxda

- Da'yarta wajahaysa welwelka, kurbada, ama niyadjabka waxay raadsan karaan kaniiniyo si ay isugu daaweeyaan waxayna u dhowdahay inay kaligood isticmaalaan.

Xanuunka

- Da'yarta qabta dhaawaca ama wajahaysa xanuun jirka ah waxay raadsan karaan kaniiniyo ay isku daaweeyaan.

Cadaadiska bulshada

- Dhallantu waxay tijaabin karaan goobaha bulshada ayaga oo la socda saaxiibadooda oo cabsan, kaniiniyo isticmaalaya, ama isticmaalaya maandooriyaa kale.

DHIBAATOYINKA FENTANYL IYO IYO SI KHALDAN U ISTICMAALKA KALE EE DAAWOYINKA

Guddaha gobolka Washington iyo guud ahaanba Maraykanka, Fentanylka sharcidarrada ah iyo waxyaabaha kale ee awoodda badan ee la qabatimo ayaa ka dhigaya maandooriyaha wadooyinka laga helo kuwo aan sugnayn waxyeelo badanna gaysta.

Tirada dhalinyarada sida khalidan maandooriyaha u isticmaalaysa ayaa korortay sannadihii danbe. Haddana, tirada guud ee carruurta Washington ee u dhintay si khalidan u isticmaalka fentanyl wali wey yara hoosaysaa. Xaqiiqada ayaa ah in inta badan da'yartu aysan si ulkac ah u baarin opioid-ka, oo ay kujirto fentanyl.

Wali, hal nolol oo la waayo ayaa aad u badan. Fentanyl waxay waxyeelaynaysaa dadka aan dadka ugu jecelnahay. Waa mid anaga na khusaysa inaan iska caawino sidii midkeenba kan kale u badbaadin lahaa.
