

**Friends  
share  
snacks,  
not pills.**

**FRIENDS FOR LIFE**  
  
**PREVENT OVERDOSE**

**Illicit (illegal) fentanyl is  
a drug that can cause overdose  
or death. It's showing up in  
fake pills that look like real  
prescription OxyContin,  
Adderall, Percocet, and Xanax.**

You can't tell by looking whether a pill has  
fentanyl in it.

Only take medicine that has been prescribed  
to you, and don't share it with friends.

Because friends help keep one another safe.

Everyone deserves to live,  
and anyone can be a friend for life.

**Your  
friends  
care what  
you think.**

**FRIENDS FOR LIFE**  
  
**PREVENT OVERDOSE**

## **Use your influence to encourage your friends to:**

- **Try out for a sports team**
- **Apply for an  
after-school job**
- **Do what makes them  
feel healthy and happy**

**Speak up if you see them being pressured to  
try fake prescription pills or other drugs.  
Because friends look out for one another.**

**Everyone deserves to live,  
and anyone can be a friend for life.**

**Learn more at [WAFriendsForLife.com](http://WAFriendsForLife.com)**

**This  
is your  
pre-frontal  
cortex.**

**FRIENDS FOR LIFE**  
  
**PREVENT OVERDOSE**

**It helps you make safe choices,  
and it's still growing.**

**That can make it hard to decide  
if something is risky or not.**

**The fact is taking pills that  
aren't prescribed to you is  
never safe.**

Illicit fentanyl is a drug that can cause  
overdose or death. It's showing up in fake pills  
that look like real prescription OxyContin,  
Adderall, Percocet, and Xanax. The risk to  
your brain and body just isn't worth it.

Everyone deserves to live,  
and anyone can be a friend for life.
