

Friends help

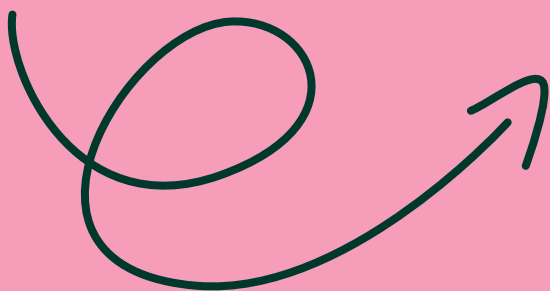

keep one another safe.

Fentanyl is being mixed into many drugs. The best way to avoid fentanyl is to avoid using drugs.

If you or your friends use drugs, assume any pill or powder—no matter what it is called—may have fentanyl in it.

Take these steps to help prevent an overdose.

Test pills and powders using fentanyl test strips.

Share the Never Use Alone hotline, 1-877-696-1996.

Avoid mixing drugs (or drugs and alcohol).

Carry naloxone, also known as Narcan.

Everyone deserves to live, and anyone can be a friend for life.
